

IMTISAL ADEEL

Web Developer | BS IT Student

Location: Sialkot, Pakistan | **Contact Info:** 03226851314 | **GITHUB:** github.com/imtii56

SUMMARY

Motivated 6th-semester Information Technology student at the University of Sialkot seeking a Web Development Internship. Experienced in building full-stack PHP/MySQL web applications and front-end interfaces. Skilled in translating Figma wireframes into responsive code, writing clean logic, and deploying web applications to live hosting servers.

TECHNICAL SKILLS

Languages & Backend: PHP, MySQL, JavaScript (Basic) **Tools & Version Control:** Git, GitHub, Linux CLI DOM), HTML5, CSS3

UI/UX Design:

- **Figma:** Wireframing, High-Fidelity Mockups
- **Deployment & Hosting:** Live Web Hosting (Infinity-Free, Prototyping), GitHub Pages.

KEY PROJECTS

➤ USKT Resource & Collab-Hub

Figma Prototype • Infinity-Free Hosting • GitHub Repository

- Designed interactive UI/UX wireframes and prototype mockups using **Figma** prior to development.
- Built a full-stack academic portal featuring user authentication (sign up/login), course details, and resource navigation.
- Structured relational **MySQL** databases via phpMyAdmin and authored backend **PHP** scripts for form processing.
- Successfully deployed database and application files live on **Infinity-Free** server with configured database connectivity.

➤ Glass morphic Calculator -End

GitHub Pages Deployment • GitHub Repository

- Developed an interactive calculator app utilizing modern **Glass-morphism** UI styling with HTML5 and CSS3.
- Implemented core evaluation logic and DOM interactions using clean, modular **Vanilla JavaScript**.
- Published static application directly to **GitHub Pages** with active CI/CD deployment workflow.

EXPERIENCE & PRACTICAL TRAINING

Web Development Practice & Projects

- Practiced end-to-end web workflows: Figma prototyping → front-end slicing → database design → backend logic → web deployment.
- Utilized Git version control and GitHub repositories for managing codebase commits and tracking changes.
- Handled Linux-based file management, folder paths, and case-sensitivity configurations during production server setup.

Academic Lab Work - University of Sialkot

- Developed interactive web page layouts as part of core BS IT laboratory modules.
- Designed Entity-Relationship Diagrams (ERD) and relational database schemas for coursework projects.

EDUCATION

BS Information Technology (6th Semester)
University of Sialkot, Pakistan

2023 – 2027 (Expected)
